

The USAID Feed the Future Malawi Strengthening Agricultural & Nutrition Extension (SANE) project (2015-2020) is implemented by the University of Illinois at Urbana-Champaign with the Ministry of Agriculture.

Our goal is to improve coordination and collaboration around all agricultural issues. Among other things, we have been collecting, sharing and working together to strengthen synergies around Information Education and Communication materials. We share them mostly via dropbox and whatsapp groups:

- SANE Ag Extension Resources (inclusive of Environment, Gender, Nutrition)

<http://bit.do/MalawiAgNut>

Enjoy, read, improve and keep sharing!
